

WEEK 9 - AVIATION CAREERS

AVIATION CAREERS

Plan:

Read book

Have the students guess what each truck is for when they first see its picture.

Where do the students think the trucks are going?

Explain what a catering truck is and why it needs to raise and lower.

Show a YouTube clip of what happens to checked baggage in an airport

What is a conveyor belt? Where else have students seen these in use?

What is a mechanic? Explain what an undercarriage is and how it works.

Why is a tug used to push an aircraft back from the terminal?

Why do the workers wear hearing protection and orange vests?

What other aviation jobs can the students think of? Brainstorm!

Activity Pages: Mechanic, NASA, Pilot
